About this activity

Leading your own dog-sled team through a winding snow-covered forest is the experience of a lifetime. A one-of-a-kind Jackson Hole experience, learn how to “mush” with trained Alaskan sled dogs or relax in the sled while gliding through the valley. Several guided tours and vendors are available, all of which cover some of the most beautiful terrain in the valley – like the Gros Ventre Range, Granite Hot Springs and the Continental Divide. Each outfitter offers a different kind of experience, from full day excursions to mineral hot springs to a quick accessible ride at the base of Teton Village there are plenty of options to fit your liking.

Things might look a little different this year, so here are a few things to keep in mind:

- This is one of the most popular and limited activities in the valley so plan ahead to ensure availability for your guided tour.
- Indoor services may be limited, so call ahead for information and prepare to spend more time outdoors.
- Wear warm clothes, bring a mask and make sure to dress in layers.

Local businesses are taking precautions to keep our community, and you, safe and there are a few things you can do to recreate responsibly.

- Remember to stay 6 feet away from other parties and socially distance.
- Wear a mask in case of any close encounters where you cannot maintain social distance. The CDC does not recommend neck gators or buffs for full protection against COVID-19. Dry, double layered face coverings are recommended. Bring an extra in case one gets wet.
- When group transportation is required, guests will be required to wear a mask.
- Some tours may be limited to private groups, so inquire ahead of time.
